

# Scrabble

Playing Scrabble is an excellent method for reinforcing spelling skills. Begin by selecting your 12 words and jumbling the letters on the board as shown in the diagram below. You can either place a word on the board to start the game or encourage your students to choose a word. Use any letter from the existing word on the board to create the next word, ensuring that the new word intersects logically with the previous one. This interactive approach not only strengthens spelling proficiency but also enhances vocabulary and strategic thinking. You can either play as a team or individually.

## Example

			w		e		
			r		n		
			i		a		
			t	a	b	l	e
B	a	k	e		l		
					e		

**Jumble up the letters for the words below**

write  
bake  
table
